Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-3, drawn to a golf ball having a clear polyurethane coating, classified in class 473, subclass 378.
 - II. Claims 4-6, drawn to a composition suitable for coating a golf ball, classified in class 524, subclass 589.
 - III. Claims 7-8, drawn to a method of coating a golf ball with a clear polyurethane coating, classified in class 427, subclass 385.5 and 425.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and III are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, Invention I is directed to the drying accelerator for the clear polyurethane coating which could be accomplished by using other catalysts such as dibutyl acetylacetonate, dibutyl tin dibutoxide, dibutyl tin sulphide, and etc. Invention III directed to a method of coating a golf ball with a clear polyurethane coating with mixture of surfactant, a base, and a drying catalyst. The process as claimed can be used to make a materially different process such as applying a finishing polyurethane coating with a mixture of polyol and polyisocyanate in a pressure pot without a catalyst.

Art Unit: 3711

3. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the product as claimed can be used in a materially different process such as coating for softballs, baseballs, cricket balls, and etc.

4. Because these inventions are distinct for the reasons given above and the search for Group I, II, and III have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. A telephone call was made to **Jeff Washvill** (Agent # 46366) on **April 3, 2002** to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under CFR 1.17(I).
